Mt. SAC Dedicates New Science Complex

New complex is the crown jewel among community college science programs

With local legislators, school district officials, and the College community on hand, Mt. SAC held a formal dedication ceremony for its new Natural Sciences Complex on Friday, Nov. 6.

“As a learning environment, the new science complex stands alone among the state’s community college science facilities in terms of size, scope, and state-of-the-art technology,” said Natural Sciences Dean Larry Redinger. “The synergy of the future is in these buildings.”

More than 12 years in the making and over 250,000 square feet, the four-building $79.1-million complex was completed in several phases and includes the Science Laboratory Building (60), the Bio-Chem Lecture Building (7), the Science Lecture Building (11), and the Math and Science Instructional Center (61). The complex is the result of years of collaborative planning by faculty, administration, staff, and students.

“With the opening of the Math and Sciences building last spring, we finished the process to unify all the math and all the science instruction in single area, a process that was conceptualized in 1996,” Redinger said.

The complex houses the disciplines of astronomy, biology, chemistry, earth sciences, engineering, mathematics, physics, and histotechnology. It is home to over 90 full-time professors, 120 adjunct professors, and 20% of Mt. SAC’s student population.

Some of the other unique features of the complex include a state-of-the-art instrumentation lab in the Bio-Chem Lecture Building, several student study areas and a robotics room for physics students in the Math and Science Instructional Center, and a cadaver lab for anatomy classes in the Science Laboratory Building.

The dedication was followed by a celebration of the life of former Instructional Services Dean Debbie Boroch, who passed away last July. Boroch, who previously served as Natural Science Associate Dean, was instrumental in the planning stages of the complex. She began at Mt. SAC as a biology professor in 1986 and was named the Academic Senate’s Outstanding Administrator of the Year in 2004.

Mt. SAC Opens Exploratorium and Meek Collection

The College recently held a grand opening and dedication for the new Exploratorium in the Math and Science Instructional Center and the $1-million B.J. Meek trophy collection of taxidermic animal specimens, which was donated to Mt. SAC.

“When we dedicate this today were not just dedicating it for the faculty, staff, and students. We are dedicating for the entire community,” said President John Nixon.

The collection, which occupies half of the Exploratorium, displays animals from nearly every continent, including lions, tigers, wolves, and grizzly bears.

Meek, a supporter of lifelong education, collected the specimens in the exhibit from all over the world, including Alaska, Turkey, Peru, Africa, the Artic Circle, the Yukon Territory, Siberia, Australia, and Brazil.

The second half of Exploratorium will feature science displays by the different disciplines within the division. In addition to the learning opportunities for Mt. SAC students, the Exploratorium will provide tours for area school children.
With the advent of winter, this wet, colder season marks noticeable change, which is apparent in many ways beyond the weather. This month brings the close of another semester, one with record enrollment, despite a reduction in the number of classes we offered. Our students continue to soar, too, reflecting the dedication and skill of the faculty and staff who support, encourage, and guide them. Through athletics, academics, forensics, performing arts, journalism, and more, our students collectively reach heights of achievement greater than any community college in the nation, making us justifiably proud to belong to the Mt. SAC family.

Of course, change brings both the positive and the negative, and the fiscal challenges facing California have only increased this fall. In January, the governor will present his budget proposal for the next fiscal year, and, with a deficit in excess of $20 billion, prospects are dim for any relief from the revenue reductions we experienced this year. As you know, we are taking significant steps to reduce expenditures, including a soft hiring freeze, and I want to give you an update on the initiative to reduce expenditures by adopting/adapting suggestions that you have offered.

The Budget Committee collected over 200 suggestions for reducing expenditures, and a task force of that committee has just completed a thorough evaluation of all of the suggestions. Sorting for duplication and eliminating some that were either impossible or irreverent, the task force has identified approximately 100 suggestions that we will pursue by determining costs and impacts. Some of the suggestions would impact collective bargaining, so those will be considered through appropriate processes, outside the purview of the Budget Committee. Once costs and impacts are defined, the full Budget Committee will evaluate the suggestions, with the goal of presenting a final set of recommendations to the President’s Advisory Council in a month or two. The overall goal is to identify at least $1 million dollars in cost savings through the initiative, and I am confident that we will succeed. I certainly respect and appreciate your participation in the initiative, as well as your commitment to the fiscal and educational integrity of the college.

By late January, we should be able to develop a clearer picture of the next fiscal year. The governor’s budget proposal will serve as a guidepost for projecting our revenues, and we will have a better sense of the cost savings we can build into our own budget assumptions for next year. The Board of Trustees is committed to maintaining the quality of our programs and services and to protecting ongoing employees. The board has authorized the prudent use of reserve funds over the next two years, which, when combined with actions to reduce expenditures, should take us a long way toward maintaining programs, services, and jobs. Of course, I cannot guarantee that we can avoid layoffs, but, working together, I am confident that the directions we take and decisions we make will reflect our mission and values.

The various holiday teas across the campus truly are a Mt. SAC family tradition, and I encourage all of us to embrace and extend the spirit of giving and caring we felt this week as we transition to a challenging and uncertain new year. Enjoy the holidays, and I look forward to working with all of you next year, knowing that together we can overcome any test to our commitment to and passion for Mt. SAC.

—Dr. John S. Nixon
President & CEO
Trustees Chen Haggerty and Hall Reelected

Trustees Judy Chen-Haggerty and Dr. David K. Hall were recently congratulated at a campus reception for their reelection to the Board of Trustees for four-year terms. Chen Haggerty received 26,403 votes for 42.3% of the ballots, while Hall garnered 24,538 votes for 39.3% of the ballots. They join three other publicly elected trustees (Fred Chyr, Dr. Manuel Baca, and Rosanne Bader) as well as a student trustee, Xavier Padilla.

First elected in 2001, Chen Haggerty has completed two terms on the Board. Currently she is board vice president. Professionally she is a managing director/attorney for the law offices of Edward J. Haggerty, P.C. A Rowland Heights resident for over 25 years, she is also a law professor at Rio Hondo College and the University of Phoenix. In the community, Chen Haggerty has served on the boards of directors for the Mt. SAC Foundation, Presbyterian Intercommunity Hospital, American Red Cross, the La Puente Valley Regional Occupational Program, FORUS Foundation (Rowland Unified School District) and the Rowland Heights Chinese Association.

Hall begins a fourth term and now heads the board as president. He holds the distinction as the longest-serving Mt. SAC trustee (since 1995). Professionally, Hall is senior vice president of Hitchcock Automotive Resources in City of Industry, one of the nation’s largest privately owned retail automotive groups. He also chairs the Human Resources and Security Management Committee for the Industry Manufacturers Council and is president of the Southern California Agriculture and Nutrition Foundation. In the community, he serves on the San Gabriel Valley YMCA board and supports a wide variety of local service, business and community groups.

Trustees Approve $140.9-Million Budget

Budget forecasts $11-million shortfall in 2009-10

At its September meeting, the Board of Trustees approved the college’s 2009-10 budget, a $140.9-million budget that assumes a $4.6-million cut in apportionment, a projected $5.1-million deficit, and an additional $6.5 million in cuts to categorical programs for an overall shortfall in revenues of $11 million. Cuts in state funding, property tax deficits, an enrollment fee deficit, and fewer lottery dollars have all hurt Mt. SAC.

The latest hit to the college’s budget was the July 28 state budget revision, which resulted in a $4.6-million reduction in Mt. SAC’s base apportionment. Also budgeted was $3.8 million in one-time expenditures that include $1 million for the Board of Trustees November election, $1.6 million in carryover budgets from 2008-09, and $1.2 million for support of categorical programs. The adopted budget also forecasts no growth funding and no cost of living allowance (COLA) for 2009-10.

However, Mt. SAC is fortunate to have a large Unrestricted General Fund reserve of $27.2 million, a 18.26% reserve balance. The college will be able to offset the shortfall in state funding with reserves this year, but similar funding in subsequent years will be problematic. Mt. SAC’s current policy requires a 10% reserve.

Meanwhile in a response to financial downturn, Mt. SAC has implemented a qualified hiring freeze and has been looking at ways to make the college more efficient. This fall, the college administration also began taking employee suggestions for ways Mt. SAC could operate more efficiently.

The 2009-10 adopted budget stands in stark contrast to the college’s budgets in recent years. For the past four years, Mt. SAC has enjoyed budget surpluses, including a $7.5-million surplus for 2007-08 and a $400,000 surplus for 2008-09.

The college expects state funding to be a question mark throughout the remainder of this year and over the next few years, in which multimillion-dollar deficits may be likely.
First of the Row Buildings Comes Down
Construction begins on the future Design Technology Center

After more than a decade of planning, the first three of Mt. SAC's row buildings were finally demolished this fall to make room for the new Design Technology Center. To some, the row buildings, which have been a part of the Mt. SAC landscape and for more than 56 years, were the symbolic core of classroom instruction on campus.

Built in 1949 and 1953, the row buildings housed everything over the years from history and foreign language classrooms and office space to biology and English. Planned for demolition since the college's first attempt at a facilities bond measure in 1997, the row buildings 13, 14, 15 succumbed to the construction excavators in September. A groundbreaking for the future Design Technology Center was held in October. The center should open in spring 2011.

"This is going to be a state-of-the-art facility that will allow our design-based programs to be in close proximity to each other, creating a synergy for our students," said Arts Dean Sue Long, whose division will share the facility with related disciplines from other divisions.

One of the last projects to be funded by Mt. SAC's Measure R facilities bond, the $24.8-million Design Technology Center project will consolidate the college’s computer-based design programs such as Animation and Graphic Design, Architecture and Interior Design, Photography and Computer Graphics, and Web Design. The 69,000-square-foot facility will feature advanced computer systems and state-of-the-art technology to accommodate these programs.

The project will also include several student-orientated areas and an open computer lab to encourage collaboration conducive to various modes of learning. It will also have a built-in gallery area that will enable our students to exhibit their work and get feedback from their peers.

"Everyone in the building will also have access to an open multi-discipline media lab, which will generate optional possibilities for multi-discipline interaction and learning," said Business Dean John Heneise.
Offices on the Move

If you’ve had trouble finding a specific department on campus this fall, you’re not alone. Several departments have relocated to different offices on campus due to construction projects—most notably the administration building renovation.

The Instruction Office has moved to Miracle Mile in building 16F. The Administrative Services Office, which includes the Administrative Service Vice President’s and Risk Management offices, has moved to 11A. Human Resources and Benefits have moved to 16E, and the Institutional Grants Office has relocated to 16B.

You can now pick up your copies at the Copy Center relocated to 21B and pick up your mail at the Mail Center in 21C.

Meanwhile Fiscal Services, Continuing Education, Payroll, Purchasing, Marketing & Public Affairs, and Parking offices have all moved to east end of campus in building 40.

In other moves this fall, the Bridge Program along with the ASPIRE and Early College High School programs have relocated to the Student Services Annex, building 9D.

There was more than a little drama this fall as the Theater Department staged its production of Alan Ball’s *Five Women Wearing the Same Dress*.

The Art Gallery kicked off the new semester with its “Intimacy on Paper” exhibition.

Before the start of the fall semester, faculty, staff, and administrators took time to enjoy the annual Welcome Back Barbecue.

Information Technology opened its doors to the campus community with an open house for its new facilities, located off Bonita Drive.

The Teacher Preparation Institute held an open house in October. The program promotes students’ interest in teaching.

12th Annual Wassail Dinner & Concert
College Mourns the Loss of Jay Devers

The Mt. SAC family continues to mourn the loss of Auxiliary Services Administrative Director Jay Devers, 54, who passed away suddenly on Nov. 24. Friends and family packed the chapel of Todd Mortuary in Pomona on Dec. 1 and afterwards gathered at a reception at Founders Hall to share memories and remember him for his competent leadership and down-to-earth nature.

“During his tenure, Jay was an excellent representative of Auxiliary Services to the campus and of Mt. SAC to the community,” said President John Nixon. “He was an integral part of the Mt. SAC family and was a key contributor to our management team.”

Jay joined Mt. SAC in 2002 to oversee Auxiliary Services, which comprises the merchandizing and revenue centers of the college, including all food and beverage concessions and the SacBookRac. Those who worked closely with him remember Jay as a friendly and good-natured colleague.

“Jay was an outstanding member of the Mt. SAC family,” said Administrative Services VP Mike Gregoryk. “I always found Jay to be open, trustworthy, honest and caring about others. I am proud he was part of my team, and he will be missed.”

"Jay was not only my manager for six years but a mentor and friend who was always available to listen to my problems and concerns," says Bursar’s Office Manager Sheree Culross. "I will miss our Monday morning talks and the sound of his cowboy boots in the hallway."

"I believe Jay worked as he lived--a kind, generous man with a contagious smile," said Suzane Leutjen, SacBookRac director. "He always worked the ‘register line’ in the bookstore during the first week of classes, and he loved to talk to the students in line. He knew many of the students from having worked at Walnut High School. Students and bookstore staff had become accustomed to seeing him at the head of the line, so we’ll miss seeing him there in the coming semesters."

“He was a people-type of person and was always in a positive frame of mind,” said Bookstore Shipping & Receiving Supervisor Don Haggard. “He was very helpful and would never hesitate to lend a hand in any type of project.”

Prior to Mt. SAC, Jay was an administrator and coach at Walnut High School for 20 years. He was involved in many organizations, including local chambers of commerce. He was also an avid Mason and was in line to head the Cryptic Masons of California, as his father did years ago. Jay is survived by his mother, a son and daughter, as well as other relatives, colleagues and friends in the community and at Mt. SAC.

Accreditation Self-Study Draft Available for Review

Mt. SAC’s Self-Study for Reaffirmation of Accreditation has completed the campuswide review process. Many faculty, staff and students provided valuable feedback about the document.

The Self-Study is the end product of the college’s self-evaluation process that assessed the quality of instruction, programs, and services the college provides its students. The analysis, based on a set of rigorous standards, was compiled in the 300-page self-study document. More than 30 Mt. SAC faculty, administrators, staff, and students worked on the college’s Self-Study report.

Compiled in anticipation of the college’s next accreditation team visit in October 2010, the Self-Study is the result of a year of hard work by the campus accreditation standard teams. It is divided into four parts or standards: Institutional Mission and Effectiveness, Student Learning Programs and Services, Resources, and Leadership and Governance. Accreditation, a process which occurs for colleges every six years, is a college’s good housekeeping seal of approval.

Copies of the draft document are available online at www.mtsac.edu/administration/accreditation/2010self_study.html or as paper copies from Self-Study co-chairs Kristina Allende and Barbara McNeice-Stallard. Revisions will be made, based on feedback from the internal review. The document will then be finalized for design and publication.
College Aviation Turns 20
Flight school remains the only one of its kind in the state

College Aviation, Mt. SAC’s flight school operating out Brackett Field in La Verne, recently celebrated its 20th anniversary and along with it the distinction of being the only college flight school operating in the state. “We’re still the only college in California that operates its own flight school,” said aeronautics and transportation co-chair Robert Rogus.

More than 235 students and former students attended the anniversary celebration at Mt. SAC’s James T. Clarke Hangar located on the grounds of Brackett Field. Open seven days a week, the school provides students with the opportunity to earn their pilot’s license at roughly a 15-to-20% discount compared to most local private flight schools.

On average, it takes College Aviation students 65 hours of training to earn their license. Students pay $30 an hour for flight instruction and between $65 and $105 to rent the aircraft. The total cost for a first license is approximately $8,000—a bargain for the cost-conscious student.

And while College Aviation is a one-of-a-kind program among California’s colleges, airplanes have been a part of Mt. SAC since the beginning. “Aviation was here since the first day the college opened,” said Rogus. Airplanes used to take off from and land on what is now Bonita Drive on the eastern end of campus, and the first college aircraft was purchased by the Pomona Chamber of Commerce in the late 1940s.

“Before College Aviation was established, Mt. SAC’s airplanes were a private company’s flight line,” said Rogus.

Fast forward to 20 years ago when aeronautics chair Wayne Lutz had an idea. Lutz spearheaded the move to establish the College Aviation flight school facility at Brackett. The program grew and soon after Mt. SAC’s airframe and powerplant (A&P) program also established a base at Brackett when in 1991 the Clarke Hangar, named after philanthropist Sophia Clarke’s son, was dedicated.

Two-and-a-half years ago, College Aviation, which resided on the south end of Brackett, moved to the Clarke facility where it is today.

Today, Mt. SAC’s aviation program currently has five aircraft—four Cessna airplanes and a Piper Arrow. There are 300 students enrolled in commercial pilot courses, 300 students enrolled in air traffic control classes, and 50 students enrolled in the flight school. But according to Rogus, there could be more.

“We are turning away 30 to 40% of the students who apply to our program,” he said.

In the future, College Aviation should purchase two more aircraft to accommodate the demand, he said.
Mt. SAC Celebrates Disability Diversity

Disabled Student Programs and Services (DSP&S) observed Disability Celebration Month with presentations and workshops throughout October.

“Disability Celebration Month seeks to dispel the myths about disabilities and to promote the inclusion of individuals with disabilities in all aspects of society,” said DSP&S Director Grace Hanson.

Workshops offered included presentations on topics such as memory strategies, understanding stuttering, disabled veterans, universal design, and conversational sign language.

“We have a responsibility to welcome everyone regardless of their disability,” said Hanson.

Mt. SAC has one of the largest Deaf and Hard of Hearing student populations among California’s community colleges. With 140 Deaf and Hard of Hearing students, the college ranks among the top 10 in the state.

DSP&S offers a full range of services for students with physical, sensory and cognitive disabilities. Cognitive disabilities, such as learning disabilities, can include students of average or above average intelligence who have a greater than expected difficulty with one or more academic skills. The department offers assessment, counseling, and instructional strategies to help students.

Student Knows She Can Dance

Dance Dept. Chair Amy Nakamura absolutely knows one of her students can dance.

Pauline Mata, who is a dance student at Mt. SAC, was among the top 20 contestants on season six of Fox’s “So You Think You Can Dance.”

“She’s somebody you don’t forget,” Nakamura said. “She has one of those stunning TV personalities, and her musicality with dance is must amazing. She’s just gorgeous to watch.”

The 19-year-old dancer, who was also a contestant on the television competition in season five, has taken a series of dance classes at Mt. SAC, including advanced ballet, jazz, and modern dance. According to Nakamura, she can do 10 pirouettes in a row without stopping.

“She can do everything, which is why I think she’ll be on the show for quite a while,” she said.

Her specialty is jazz, but she is well versed in many dance styles. And while she is focused on dance, she also finds time to help others and get involved in community fundraisers.

“Other students look up to her as a role model. She so inspirational,” Nakamura said. “We have been fortunate at Mt. SAC to have had a lot of great dancers come through our program, and Pauline is following in that line.”

Mata took the fall semester off to focus on the dance competition.
Bridge Program Completes 12th Year On Top

Program enrolls a record number of students for summer and fall

The Summer Bridge Program completed its 12th year at the College while serving a record number of students in its most recent session. A total of 326 students out of 1,000 applicants were accepted into the six-week program designed to help first-time students make a smooth transition to college life.

“We’ve doubled our program over the last two years,” said Bridge Project/Program Coordinator Naomi Abesamis.

The Summer Bridge Program helps students acclimate to Mt. SAC and overcome the fear of college. The program bridges the gap for students by orientating them to the academic and social aspects of college. The program helps students succeed through the use of learning groups and linked classes to develop a sense of community. It also provides access to other support services.

This summer, the program included academic classes, field trips to universities, guest speakers, tutoring, parent orientation, college orientation, and registration assistance. The cohort of academic classes includes LERN 49 & 81, English 67 & 68, and Math 50.

And for the Bridge Program, the records keep rolling in. For this fall semester, the Bridge Program had 600 students enroll—also a record.

During the fall and spring semesters, the program offers three learning communities: a Math Bridge, an English Bridge, and a Pre-Nursing Bridge. Each program focuses on a specific need and has counseling support to assist students.

The program is staffed by four full-time employees, 12 peer advisors, and six student assistants.

Mounties Crowned ’09 State and National Football Champs!

Mt. SAC’s Football Team is #1, not just in the state, but also in the nation! The Mounties edged host College of San Mateo, 7 to 6, in the California Community College Athletic Association State Championship Game on Saturday to capture the state and national championship titles.

The Mounties finish the season with the nation’s best record of 13-1. Congratulations to the Head Coach Bob Jastrab, his staff and players for an outstanding season.

Men's Soccer Team Nets 1st State Title

We give a campus high-5 to our Mountie Soccer Team for capturing its first Men’s Soccer State Championship, defeating Taft College 2-1. This is a first-ever state title for Coach Juan Sanchez, and sophomore forward Aaron Salazar was named the Tournament MVP. At press time, the team was named national champs as well. This marks a double national honor for Mt. SAC.
Recital Hall Renamed for Former President

The Performing Arts Center Music Recital Hall was formally dedicated and renamed as the William H. Feddersen Recital Hall in a ceremony on Saturday, Dec. 5, in front of the recital hall.

The Board of Trustees authorized the name change to acknowledge Dr. Feddersen’s commitment to the arts and his dedication to the completion of the Performing Arts Center during his presidency.

Dr. Feddersen, who served as Mt. SAC’s sixth president from 1991 to 2002, spearheaded the effort to update and upgrade facilities on campus. Feddersen’s presidency saw the construction of the first buildings on the Mt. SAC campus in 25 years, which included the Student Services Center in 1994 and the Performing Arts Center in 1996. He also led the effort to infuse continuous quality improvement practices as part of the College’s processes, and it was during his presidency that Mt. SAC’s Measure R facilities bond passed.

The Performing Arts Center had its grand opening in 1996, replacing the outdated music and theater building, constructed in 1957. The $17-million, 66,770-square-foot center boasts a 400-seat theater, a 250-seat recital hall, a dance studio, plus classrooms and offices to provide top-notch instruction in drama, music, and dance.

Although now retired, Dr. Feddersen is still involved with Mt. SAC through his attendance at campus events and support of student scholarship programs. He is currently helping to update the Mt. SAC history book, which originally covered the first 50 years on campus.

2008-09 Annual Report Released

The 2008-09 Mt. SAC Annual Report has been released, highlighting the year in review and the progress made in achieving the College’s institutional mission.

The annual report captures Mt. SAC’s achievements and challenges through the past year in instruction, finances, student services, and campus construction. The report also covers progress made by the Mt. SAC Foundation and its activities as well as student and alumni success stories.

The annual report is being distributed to all employees and community leaders.
New ‘10 Winter & Spring Schedules Now Available!

The new Winter and Spring Class Schedules covers celebrate student success and quality instruction. Schedules are now available at key campus locations as well as public libraries. You can also view the schedules online at www.mtsac.edu

Spring registration opens Jan. 19

JANUARY  JANUARY  JANUARY

4 — Winter Intersession begins

18 — Martin Luther King Jr. Holiday, campus closed

19 — Spring Registration begins

27, 6:30 p.m. — Board of Trustees Meeting, Founders Hall

FEBRUARY  FEBRUARY  FEBRUARY

4 - 6, 8 p.m. — Student Show, an evening of short plays. Matinee performance Feb. 7, 2 p.m. Studio Theater

11, 8 p.m. — Opera Scenes, student performance, Feddersen Recital Hall

12 & 15 — Presidents’ Day Holidays, campus closed

14 — Winter Intersession ends

22 — Spring Semester begins

24, 6:30 p.m. — Board of Trustees Meeting, Founders Hall

MARCH  MARCH  MARCH

11, 4-6 p.m. — Craig Deines, art exhibit runs March 11 - April 8, Art Gallery

12 & 13, 7:30 p.m. — 12th Annual Puttin' on the Hits, Matinee March 13, 3 p.m., Clarke Theater

24, 6:30 p.m. — Board of Trustees Meeting, Founders Hall

27, 8 p.m. — 9th Annual Spring Thing, Clarke Theater

31 — Cesar Chavez Day, campus closed

APRIL  APRIL  APRIL

16, 17, 23 & 24, 8 p.m. — Tartuffe: Born Again, theater production, Clarke Theater

17, 8 p.m. — Music Department Student Showcase, Feddersen Recital Hall

18, 3 p.m. — Triple Threat, faculty music series, Feddersen Recital Hall

28, 6:30 p.m. — Board of Trustees Meeting, Founders Hall

29, 4-6 p.m. — 62nd Annual Student Art Exhibition, art exhibit runs April 29 - May 20.
